Reality Check Short Profile

We put the power of virtual tour creation in the hands of site owners to facilitate low cost, high impact virtual site visits that can be shared from your website, from our app and over webinars and video conference software to 100's of participants at a time.

Our clients range from major diversified miners and large caps, such as Anglo American and Barrick, to micro-caps, private companies, consultants and buy-side.

Reality Check: providing the industry with the tools to build trust through transparency.

Proud to be partnered with the London Stock Exchange since 2018

John van Eeghen Short Profile

John is the founder of Reality Check Systems (www.realitychecksyste.ms.co), a cloud platform that hosts and distributes data enriched immersive tours of remote industrial sites, unlocking the insights provided by UAV's, 3D models and data augmented Virtual Reality. Reality Check are proud to be partnered with the London Stock Exchange Marketplace since 2018.

In addition, John has spent more than a decade financing Mining and Oil & Gas companies, during which time he has raised over \$1Bn in equity, debt, off-take and structured notes. He has assisted in public market acquisition attempts and Private Equity transactions.
